As Compared With Other Commodities

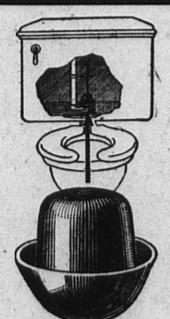

While other commodities have advanced 67 per cent over 1913 prices, automobile prices have decreased 29 per cent.

As prices have lowered, Buick quality has increased. The prices of current Buick models average \$300 below those of the 1925 line. And, in the unprecedented sales, is found the public's enthusiastic recognition that today's car is a Better Buick.

In no other motor car will your dollar buy so much value. That is why the BUICK leads in 6-cylinder motor car sales.
